

Bleached Tack Rags

C425 / P65 / GMR

- Cotton bleached Gauze material
- Tack Rag for Dust Retention

This woven Industrial Tack Rag is composed of bleached cotton fibers and is used to pick up dust particles before paint and coating operations and after sanding.

It is a high quality cotton fiber with 15 threads per sq inch yarn content which has been used for over 30 years in the automotive industry.

The bleached fibers ensure that no foreign materials nor dirt particles are contained within the fabric.
