

G-Tack X Plus

G-Tack X Plus white or green

- White Non Woven Tack Rag
- 50% Rayon / 50% Polyester

Physical characteristics

Tests	Orientation	Units	Targets	Methods
Base Weight		g/M ²	48	ISO9073.1
Base Weight Impregnated		g/M ²	56	ISO9073.1
Thickness		mm/4 Lagen	2.07	ISO9073.2
Tensile Strength	MD(12 Lagen)	N/25mm	570	ISO9073.3
Tensile Strength	CD(12 Lagen)	daN	63	ISO9073.3
Elongation at break	MD	%	37	ISO9073.3
Elongation at break	CD	%	87	ISO9073.3

Functions

- This is the latest new technology tack rag ensuring a pick up of fine dust particles from the Surface
- It is impregnated with a new chemical formulation on water basis which makes it particularly suitable to be used on water based paints. It's formulation does not dry out even if it is water based !
- This unique Tack Rags responds to the highest needs of delicate surface treatment tacking
- It is a unique product developed in close cooperation with OEM end users applying latest new coating techniques
- Obviously no smearing is left on the surface and this unique new basesheets ensures perfect
- dust particle pick up
